

AQUASAFE WARRANTY

What Aquabond Guarantees for Aquabond Graphic Products

Individual Product Limited Warranty

Aquabond warrants to the Distributor, Graphics Manufacturer and End User for whom a graphic was produced that each Aquabond product will be free from defects listed below and manufactured to the specifications described in the applicable Product Data Sheet in effect at the time of purchase. Additional warranties, if any, offered by the Distributor of Graphics Manufacturer are separate and exclusive of the Aquabond Warranty.

Floor Graphics Warranty

Aquabond warrants that specified components will function as part of a floor graphic system when Aquabond's published instructions (FGI) for maintenance on recommended surfaces is followed. This system is designed to provide slip resistance and durability for up to 3 months. All floor graphic markings are subject to wear and are not intended for permanent use. These are markings designed to be removed in 3 months or less.

Digital Media Warranty

Aquabond guarantees that the Aqualam Range of over-laminating films, when utilised as recommended by Aquabond will provide indoor durability. Durability is warranted for the period stated in the corresponding product DATA SHEET from the date of application under normal vertical exposure conditions. The film warranted if properly stored and applied within one year of original shipment date from Aquabond.

Over-laminating and Mounting Films

Over-laminating and mounting films warranty covers the product quality and performance, as stated in the corresponding Product data sheet guides of the family of Polypropylene and vinyl over-laminating films.

Definitions

Please see a complete list of definitions at the end of this document, which will help you understand the terms of the Warranty.

Expected Performance Life

Expected Performance Life is a reliable expectation of the period of time that the unprinted, unprocessed Aquabond Product should perform satisfactorily for its intended purpose when applied to flat, vertical substrates in a non-abusive environment. Expected Performance life is not a warranted period of time.

Defect Coverage

The coverage applies only when the defect result in the Aquabond Product does not meet the description stated in the applicable Data Sheet and whether such defects affect the usefulness of the Graphics as determined by customary industry standards.

- **Physical Defects.** Defects incurred during Aquabond manufacturing processes, packaging or shipping.
- **Manufacturing Defects.** Visual and adhesive defects due to Aquabond manufacturing processes.
- **Graphic Appearance Defects.** Defects such as excessive dimensional change (Where excessive lamination tension is not evident) or loss of adhesion or reflectivity that makes the graphic visually unsuitable for its intended purpose when viewed with the intended lighting, angle and distance for such a graphic, as determined by the customary industry standards.

Warranty Limitations

Aquabond Data Sheets may include limitations specific to the Aquabond Product(s) being used or its intended applications, which take precedence over any statement made in this Warranty Brochure. Data Sheets may be obtained at www.aquabond.co.uk.

These limitations apply when the Aquasafe Warranty is the only Warranty offered, and are due to factors over which Aquabond has no control, including the wide variety of ink, printing and manufacturing processes that may be employed.

- **Fitness for Use Limitation.** Aquabond may recommend but does not warrant fitness for any particular use or any particular compatible products.
- **Product Misuse Limitation.** This Warranty does not cover Graphic Products that are modified or damaged through improper storage, misuse, abuse, accident, vandalism, neglect or mishandling of processed or unprocessed products by any person.
- **Printing and Visual Appearance Limitation.** No warranty is given for satisfactory printing, including but not limited to type of manufacturer of ink, colour fidelity or density.
- **Adhesion, Changeability and Removability Limitation.** No warranty is given for initial or long term adhesion or the ease or efficiency of removing a film identified as changeable or removable.
- **Damage to the Substrate.** No Warranty is given for damage to the substrate due to the effect of the adhesive, ink bleed through or fading.

Remedies and Limitation of Liability

Aquabond's sole liability under the terms of the Aquasafe Warranty is credit or replacement of the Aquabond Product. Aquabond requires samples of the defective Aquabond Product and the return of the remaining unused Aquabond Product before a claim is evaluated for approval.

No Express Warranty and no Implied Warranties, whether of merchantability or fitness for any particular use, or otherwise, except as set forth above (which is made expressly in lieu of all other warranties) shall apply to the products described herein. Aquabond specifically disclaims and excludes all other such warranties. No waiver, alteration, addition or modification of the foregoing shall be valid unless made in writing and signed by an authorized representative of Aquabond. In no event shall Aquabond be liable for any incidental or consequential damages including, but not limited to, loss of profit, loss of use or production or loss of capital. Aquabond's liability on any claim of any kind shall in no case exceed the amount expressly provided for in this warranty. This limitation applies regardless of whether the damages are sought based on breach of warranty, breach of contract, negligence, strict liability in tort, or any other legal theory.
